To Whom It May Concern:

One Life to Love is a non-profit tax-exempt organization (501c3) raising funds & support for orphan, abandoned, and underprivileged children in central India.

One Life to Love was founded on the belief that every child is born with inherent purpose and the ability to do great things. However, many children are oppressed due to poverty, tragedy, illness, or mental & physical disability. One Life to Love strives to uplift these marginalized children by creating a nurturing home-life, providing their basic needs and giving them access to quality education.

Since 2013, One Life to Love has been reaching out to the most neglected people in Delhi, India. Our *Home of Hope* has become a refuge for special needs boys rescued from the cruel streets. Here they are able to heal from their tragic past and begin a new life in a loving family environment. Our *Education Program* has helped thousands of underprivileged girls avoid child marriage and has given them the opportunity to study and dream big for their future. Homeless families have found much needed help through One life to Love's *Relief Services*, in which they are provided emergency healthcare, food, clothing and shelter.

I invite you to partner with us in this work by making a tax-deductible donation. Please visit our website for more information or contact us directly at info@onelife2love.org .

Sincerely,

Courtney Deacon Lalotra
Founder & CEO
